

Human Trafficking Screening Tool (HTST) Instructions

This guide¹ is designed to help those who come in contact with youth at risk for being trafficked to screen for all forms of possible human trafficking victimization. General protocols and directions for the purpose and implementation of this screening tool have been inserted in this Administration Guide. It will be the responsibility of agency staff to follow any additional, agency-specific protocols for administering this screening tool. Only persons who have completed training on the Human Trafficking Screening Tool may administer this tool.

Human trafficking may be suspected for a number of reasons. The following indicators should trigger staff to administer the screening tool or, if there is no trained staff member present, then request a trained staff member to administer the screening tool as soon as possible.

It is important to note that if the youth acknowledges being trafficked, then staff need to call the report into the Florida Abuse Hotline (1-800-96-ABUSE). When the abuse investigation is initiated, the Child Protective Investigator will complete the Human Trafficking Screening tool with the youth.

Indicators: *(All are independent indicators with the exception of running away and a history of sexual abuse.)*

- History of running away or getting kicked out 2+ times in addition to a history of sexual abuse. Staff may use discretion in determining whether to screen a youth with fewer than 2 incidents of running away or getting kicked out.
(Definition of running away or getting kicked out of home: Include times the youth did not voluntarily return within 24 hours, and include incidents not reported by or to law enforcement.)
- Current incident or history of hypersexual behaviors
- History of prostitution-related activities
- Child has no personal items or possessions (including identity documents if foreign born - labor trafficking)
- Child is not allowed or unable to speak for him/herself and may be extremely fearful
- Child appears to have material items that he or she cannot afford (e.g. cell phones, expensive clothing, tablets, etc.)
- Child has no knowledge about the community he/she is located in
- Child shows signs of being groomed (i.e. hair done, nails done, new clothing, etc. that child cannot afford or justify how paid for)
- Suspicious tattoos or other signs of branding (e.g. tattoos of the trafficker's names, dollar signs, diamonds, stars, etc. May also have certain designs/logos on nails, jewelry, etc.)
- Child associates and/or has relationships with age-inappropriate friends, boyfriends, and/or girlfriends as defined by Florida Statute 794.05
- Child known to associate with confirmed or suspected CSEC youth
- Child is recovered from runaway episode in a hotel or known area of prostitution
- Child has inappropriate, sexually suggestive activity on social media websites and/or chat apps

¹ The contents of this guide and the screening tool were informed by the Shared Hope International (2010) Intervene Practitioner Guide and Intake Tool (see www.sharedhope.org), the research and reporting of the Vera Institute (2014) *Screening for Human Trafficking: Guidelines for Administering the Trafficking Victim Identification Tool (TVIT)* the Polaris Project (see www.PolarisProject.org), and the Covenant House (2013) *Human Trafficking Interview and Assessment Measure*.

- Report of human trafficking by parent/guardian, law enforcement, medical or service provider, teacher, child protective services, and/or juvenile probation officer.

To ensure that the tool is administered effectively, all screeners should follow the screening protocol set forth in this guide. It is important for screeners to understand that questions designed to screen for human trafficking are invasive by nature and may reveal that a youth is suffering from the effects of exposure to trauma. As such, screeners must take care to create a safe environment in which they establish rapport and trust with the youth. Additionally, screeners should be prepared to call upon therapeutic and legal staff in responding to the needs of trafficking victims.

Youth may be reluctant to respond due to a lack of trust, fear of consequences related to disclosure, and/or not viewing themselves as a victim. Strengths-based, non-judgmental, and trauma-informed approaches should be used to engage youth in a conversation to secure answers to the questions within the tool, rather than reading items verbatim. Motivational interviewing techniques may also be used to gently question inconsistencies and encourage disclosure. The guidelines that follow provide instruction for following the screening protocol for administering the HTST and should be adhered to each time a screening is conducted.

HTST Screening Protocol

Screening Preparation

The screening should be conducted in a safe and non-threatening environment. Screeners should be well-prepared, should be comfortable working with victims of trauma, and should recognize the need to ask questions in an appropriate manner that is sensitive to the needs of youth. The following guidelines should be followed when preparing to conduct a HTST screening:

- ➔ Read through the entire screening tool and this Administration Guide, so that you are familiar with the tool and able to conduct the screening in a conversational style, allowing the youth to direct the flow of discussion.
- ➔ Conduct the screening in a private, quiet environment designed to make the youth feel physically comfortable and safe.
- ➔ Be prepared to provide the youth with basic needs, such as an interpreter, tissues, drink, food, clothing, medical or therapeutic care, and/or access to services, as appropriate.
- ➔ If an interpreter is necessary, he/she should be trustworthy (unknown to the youth being interviewed) and able to use the same wording as the screener when asking questions and the same wording as the youth when answering questions. Use of an agency or certified interpreter is required, per your agency's protocol, and interviewers need to offer such to the youth when possible.
- ➔ Do not interview a youth in front of a suspected trafficker or individual who is exhibiting controlling behavior over the youth. Do not allow this person to interpret for the youth if he/she does not speak fluent English.
- ➔ Recognize that dressing in uniforms, suits, or other formal attire may cause youth to fear that you are with immigration services or other enforcement agencies.
- ➔ Use strengths-based and trauma-informed care approaches during the screening, allowing youth to lead the direction of the conversation.

- ➔ The screening process may need to take place over multiple contact points if the screener judges that the youth needs more time. The screener may postpone the discussion to a later time when the youth is ready to discuss his/her experiences. When a youth displays acute signs of anxiety, the screener should consider contacting a trained mental health professional to complete a session with the youth.

The screening tool contains a number of techniques used to help screeners administer the tool properly. Screeners should be familiar with these techniques which include the following:

- ➔ Instructions to screeners are provided in the HTST in *italics* throughout the tool. These instructions guide screeners to sub-questions that may need to be asked, sections that require information to be filled in, and questions that include prompts for further explanation.
- ➔ Introductory comments and questions to youth are in **bold typeface**. Introductory comments should be read to the youth. Screeners should use a conversational approach to secure answers to the HTST questions, being sensitive to the needs of youth who may be suffering from the effects of exposure to trauma.
- ➔ Singular items that in themselves require a mandatory report to the Florida Abuse Hotline will be highlighted in gray. An example is provided below:
 - ➔ **Report of human trafficking by parent/guardian, law enforcement, medical or service provider, teacher, child protective services, and/or juvenile probation officer.**
- ➔ Screeners should use professional judgment in deciding whether to preface a question or a prompt with phrasing such as, “Please tell me more about that...” or “If you are comfortable, could you tell me about that?”
- ➔ Sections A, B, H, and I are preceded with the instruction – *(DO NOT READ TO YOUTH)* – these sections are intended to be completed by the screener and not asked of the youth.
- ➔ Please use the lines provided within the tool to record youth’s responses to open-ended questions or any additional information that has been disclosed to you that is specific to your determination of the child’s involvement.
- ➔ At the end of selected questions, you will see this symbol ➔ which asks that screeners code for the likelihood that the youth’s responses suggest any evidence of the problem targeted by the preceding item(s). An example is provided below:
 - ➔ Evidence of Unsafe Living Environment: (*Check one*) Yes_____ No_____
